

FAASTeam presents:

Advanced Preflight after Maintenance

Advanced Preflight after Maintenance (NTSB SA-040) The benefits of conducting enhanced preflight inspections of aircraft that are being returned to service after maintenance.

The GAJSC and NTSB have determined that a significant number of general aviation fatalities could be avoided if pilots were to conduct more thorough preflight inspections of aircraft that have just been returned to service.

- * Discuss the consequences of inadequate preflight inspections of aircraft that are being returned to service after maintenance.

- * Discuss common problems that have led to accidents.

- * Encourage pilots to coordinate with mechanics before flying aircraft that have recently been maintained.

- * Encourage pilots pay particular attention to aircraft components that may have been affected by recent maintenance.

Directions: Located four miles (6 km) west of the central business district of Mariposa in Mariposa County on Hwy CA-49 S. From HWY 99 in Merced take CA-140E 28 mi towards Mariposa, turn left on Mt Bullion Cutoff Road 3.0 mi, turn right on CA-49 S 0.3 mi, turn left on Macready Way.
